Instruction for Authors.

1. Introduction.

Tekhné is a scientific journal which consider for publication papers dealing with engineering and applied sciences. Articles must have a scientific or technological original contribution and can be written in spanish, english, french or portuguese. Papers accepted in Tekhné can not have been published in another scientific journal or international conference. Tekhné issues two number by year. All contributions are submitted to referees. Names of referees will be kept confidential and their comments are send to the authors.

2. Format for papers.

Final submission can be delivered in MS Word or PDF format and following these indications:

- Paper must not exceed 20 pages.
- Use font Times New Roman 12, two columns, without numeration.
- Include two abstract, one in the original language and another one in a language preferred by the author(s). Both must not exceed 300 words and include at least five key words related with specialized domain.
- The figures and tables must use the same font of the text, numbered consecutively using Arabic numerals with their respective caption and legends.
- The formulas and equations must be generate by equation editor and consecutively numbered with Arabic numerals. It is placed in brackets in the right-hand margin.
- The recommended sections for the papers are:
 - Problem studied and objectif
 - Related works and state of arts.
 - Methodology
 - Test and results
